# TALENT SCREENING

Shape a better and happier future for your child with **Cordlife TALENT SCREENING**

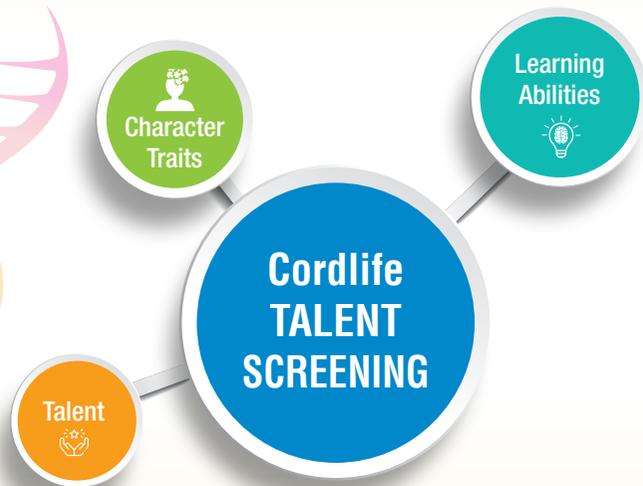

# Help Your Child Achieve Success in Life Through DNA Screening

## ✓ Importance of early childhood development

Early childhood development is key to raising healthy and successful children. As children learn and develop faster in the first few years of life, building a solid foundation for them during this period helps shape their lifelong health, academic achievement, economic success and happiness in life.

## ✓ What is Cordlife TALENT SCREENING?

Every child is unique. Cordlife TALENT SCREENING is a DNA screening service that uses cutting-edge technology to help you learn about your child. Our report will include insightful information about your child in the key categories below:

## ✓ Why should I screen my child?

Every parent wants to raise happy and resilient children. By having your child screened, you will have information backed by science to help you develop and guide your child. Parenting is not easy, so let Cordlife TALENT SCREENING make it easier for you.

# Benefits of Cordlife TALENT SCREENING

**1** Helps you save time and money so that you can focus resources on areas where your child is most likely to excel.

**2** Your child will feel motivated because their innate talents can make learning easier.

**3** Allows you to tailor enrichment programmes best suited for your child's learning style.

**4** Allows you to apply the right parenting style to fit your child's personality.

## Why Choose Cordlife TALENT SCREENING?

### EASY AND NON-INVASIVE COLLECTION

Collection is really easy! You can collect your child's DNA at the comfort of your home using an oral swab included in the collection kit. The collection kit will come with easy-to-follow instructions and materials required for the collection.

### GET TESTED ONLY ONCE IN YOUR CHILD'S LIFETIME

As DNA base pairs do not change much over a person's lifetime, you only need to let your child get tested once and the results generated will last a lifetime.

### DESIGNED FOR THE ASIAN POPULATION

Cordlife TALENT SCREENING is specially developed for the Asian population. Our partner laboratory uses genome-wide association studies, constituting a large Asian genome database, to provide you with the most accurate interpretation.

### EASY TO UNDERSTAND INSIGHTFUL REPORTS

Cordlife TALENT SCREENING reports are comprehensive and easy to understand. The reports will include recommendations that are best suited for your child.
